TROPICAL CYCLONE BULLETIN NO. 24

Typhoon KARDING (NORU)

Issued at 11:00 AM, 26 September 2022

Valid for broadcast until the next bulletin at 5:00 PM today

HAZARDS AFFECTING LAND AREAS

Heavy Rainfall

- *Until afternoon today:* Light to moderate with at times heavy rains over Zambales, Bataan, Lubang Islands, and the western portion of Pangasinan.
- Under these conditions, **scattered flooding and rain-induced landslides are still possible**, especially in areas that are highly or very highly susceptible to these hazard as identified in hazard maps and in localities with significant antecedent rainfall.
- **Occasional to monsoon rains** are still possible in the next 24 hours over the western sections of Central Luzon, Southern Luzon, and Visayas. For more information, refer to the 24-Hour Public Weather Forecast issued at 4:00 AM today and the Weather Advisory #4 issued at 11:00 AM today.

Severe Winds

Gale-force conditions remain possible within any of the areas where Wind Signal no.1 is hoisted, while **strong winds (strong breeze to near gale strength)** may still be experienced within any of the areas where Wind Signal No. 1 is currently in effect.

HAZARDS AFFECTING COASTAL WATERS

- Under the influence of KARDING, a **Marine Gale Warning remains in effect** over the western seaboard of Northern and Central Luzon. For more information, refer to **Gale Warning #6** issued at 5:00 AM today.
- In the next 24 hours, the enhanced Southwest Monsoon may also bring **moderate to rough seas** (1.5 to 3.0 m) over the western seaboard of Southern Luzon, Visayas, and Mindanao. These conditions may be risky for those using small seacrafts. Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.

TRACK AND INTENSITY OUTLOOK

KARDING will begin to move generally westward in the next 12 hours and will continue its westward track as it moves over the West Philippine Sea towards Vietnam. On the track forecast, **it will exit the Philippine Area of Responsibility tonight**. This tropical cyclone is forecast to re-intensify beginning tonight or tomorrow early morning as the typhoon moves over the West Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 PM today.
